(54) Title: CURTAIN SUSPENSION DEVICE AND A METHOD OF SUSPENDING CURTAINS

(57) Abstract: A curtain suspension device for hanging curtains flatly (for hanging panel curtains) comprises a main rod (16) arranged to a wall and at least two elongate shorter rods (15) with open hooks (17, 26) at both ends. The short rods are adapted to be hung on the main rod and are adapted to carry a flat hanging curtain each. The brackets for the main rod clamp the rod and leave the upper surface of the rod free as a sliding surface for the hooks so that the hooks can pass the brackets.
